“My husband and I have a new turkey farm. As a new farmer, I wanted to participate in Annie’s Project to learn about farm finance and record keeping. The most valuable part of the class for me was learning how to do cash flows and balance sheets, and planning for the future. I would recommend this class to anyone in any phase of their farm ‘career.’ There was information for everybody!” – Katie

"My husband and I are in the process of assuming operational responsibilities for my family farm... Although he has farmed for more than 20 years, I have always worked off the farm. I am taking some of the responsibility in this new operation so I need to learn all the basics! Annie's Project provided extensive information and resources on a wide variety of basic ag-related topics. I really appreciate having some basic knowledge and tips on where to learn more." – Linda

Farm and Ranch Women are Decision Makers

Whether a solo operator or in a partnership, the decisions made today have a long-range impact.
Why Annie's Project?

This six-week course is a discussion-based workshop bringing women together to learn from experts in production, financial management, human resources, marketing and the legal field.

There is plenty of time for questions, sharing, reacting and connecting with your presenters and fellow participants.
