

PLANT PROPAGATION PROGRAM

This program is designed to increase students' understanding of different ways plants are propagated and how plants reproduce. Seeds are sprouted in part of the program.

1. **TEACHER'S GUIDE** - General information, lesson plans, transparency masters and other experiments.
2. **PEAT POTS** - for starting seeds
3. **SEEDS** - Mixed flowers and vegetables
4. **VIDEO TAPE** - 30 minute tape showing progression of seed development.
5. **DELIVERY DATES** - Delivery of supplies will be upon written request.
