THE OBJECTIVES OF THE OKLAHOMA COUNTY FREE FAIR

The Oklahoma County Free Fair continues to stress quality in the areas of agriculture and related youth and adult activities. It gives all who enter exhibits an opportunity to compare efforts with those of others in the county, the intent being that success in exhibiting will stimulate exhibitors to greater efforts, while providing an opportunity to learn from others who have higher ranked exhibits. It is the purpose of the Fair Board to make the Free Fair educational and to encourage cooperation among all persons in the various communities of the county.

The management of the Oklahoma County Free Fair is in the hands of the Oklahoma County Free Fair Board which is composed of three elected members from each Commissioner District. The active management of the fair is in the hands of an Executive Board consisting of a president, vice-president, secretary and six board members.

The Oklahoma County Free Fair is financed by taxation. No admission charge will be made and no entry fee will be charged.

The Oklahoma Cooperative Extension Service is an equal opportunity/equal access/affirmative action institution. If you require a reasonable accommodation to participate or need materials in another format, please contact your County Extension Office (or other appropriate office) as soon as possible.
SPECIAL NOTICE

Any person who interferes with or disrupts the management or judging of either the Oklahoma County Free Fair or the Oklahoma County Junior Livestock Show will be removed from the grounds and barred from the shows for a period of not less than one (1) year.

All foods except home-canned entries not picked up during designated time will be disposed of.

RULES AND REGULATIONS

Rule 1 - Interpretations, Amendments and Violations

Section 1. The Board of Directors of the Oklahoma County Free Fair Board reserve the right to interpret these rules and regulations and arbitrarily settle all questions arising in connection with the Free Fair that shall be held under the management of this Board.

Section 2. The management reserves the right to amend or add to these rules as they, in their judgment, deem advisable. In the event of conflict of General and Specific rules, the latter will govern.

Section 3. Any person who violates any of the Special or General rules will forfeit all privileges and premiums.

Rule 2 - Entry Requirements

Section 1. All entries to the Oklahoma County Fair are free, but no unworthy entry will be received.

Section 2. All exhibits will be entered at the designated times given in program entry schedule. **PLEASE TAKE NOTE OF TIMES AND PLACES OF ENTRY!**

Section 3. All property for every character entered at the fair for any purpose shall be subject to the control of the Superintendent in charge.

Section 4. No person will be permitted to make more than two entries in each class in the OPEN SHOWS, YOUTH, ADULT, and OHCE, with exception of the Poultry and Rabbit classes. Not more than two entries in any class are to be made from the same farm or home except where separate ownership can be established. Rule 3 - Exhibitor’s Duties and Privileges

Section 1. All exhibitors must be bonafide residents of Oklahoma County or exhibitors must be enrolled in and attend a school in Oklahoma County. Residents of any school district which overlaps into any other county shall be eligible to exhibit their products at the fairs in the county in which the school district is located. All open crop exhibits must have been raised within Oklahoma County during the current crop year. Open class livestock must be owned by the exhibitor maintaining residence, farming, livestock and ranching operations in Oklahoma County. All Family Living exhibits must be made since last September, 2018. All exhibits must be the work of the exhibitor and strictly homemade, free from adulteration. All canned fruits and vegetables must have been canned during the current year. All articles in the Textile Department must have been made since September 2018, and the work of the exhibitor. All entries in the Centennial building should be permanently signed and dated, in an inconspicuous location, if material permits. Judge or judging committee may permanently mark exhibit with fair and year (e.g. TSF 2014 or OKC 2014), if not signed and dated. Effort will be made to mark in an inconspicuous place.

Section 2. The superintendent in the Livestock Department will assign spaces or stalls and exhibitors will be expected to keep their spaces or stalls in clean condition at all times during the Fair.

Section 3. No electric fans will be permitted to operate in the livestock barns unless they have guards on them and are out of the way of the public.

Section 4. Any member of the Fair Board shall have access to all premises of any character on the fairgrounds or concessions at any time during the fair.

Section 5. No one will be allowed in the show ring while judging is in progress except the exhibitor, judge, or show official.

Section 6. If it be ascertained any exhibitor has made or caused to be made any false statement in regard to any animal or article, or if any exhibitor shall attempt to interfere with the judges in the performance of their duty, he/she shall be excluded from all competition of exhibition; and any and all awards that he/she may have received may be forfeited at the discretion of the Board.

Section 7. The decision of the judges will be final and no appeal will be considered except in case of protest. Judges have the right to determine if an article is worthy of blue, red or other ribbon.

Section 8. No claims for correction or errors will be accepted after January, 2020. If you have not received your premium money or if you have not received the correct amount by December 1, 2019, write the OSU Extension Center, 2500 N.E. 63rd St., OKC 73111, phone 405-713-1125.
Rule 4 - Protests and Appeals

Section 1. All protests shall be made to the secretary in writing within 30 minutes after judging the class and shall be accompanied by a deposit of $25.00 cash, which shall be forfeited in case the protest is not sustained. Said protest must state plainly the cause of complaint or appeal and must have bona fide legal proof.

Section 2. When a legal protest is made in the Oklahoma County Free Fair in the fall or in the Spring Livestock Show, exhibitor who protested will have to put his/her animal or exhibit in a special place selected by the superintendent and leave it there until the superintendent releases it. All premiums will be held up in the class in which an exhibit is protested until protest is settled. Further placings will be made so that they might move up to a higher premium in case the protested exhibit is eliminated.

Rule 5 - Other Rules

Other rules are listed under each Department.

Section 1. The Executive Board reserves the final and absolute right to determine all questions regarding the awarding of premiums.

Section 2. In addition to the right of protest herein guaranteed to exhibitors, the Directors reserve the right to take cognizance of fraud consummated or attempted in connection with an exhibit, and take such action as they may deem just and proper.

Rule 6 - Powers and Liabilities of Board

Section 1. The management will use every precaution to guard against extortion in any form upon the fairgrounds, and violation of this rule will result in the forfeit of every privilege, and expulsion from the grounds.

Section 2. The management reserves the right to remove from the grounds any exhibits that may have been falsely entered or may be deemed unsuitable or objectionable, or to remove any sign, banner, identification mark or signature or advertising matter of any kind which may be deemed objectionable by them without giving a reason therefore.

Section 3. No diseased animal will be permitted to be exhibited, or to occupy the exhibit stalls at the Fair, and every precaution will be used to enforce this rule, but the management will not be responsible for any loss or damage that may be sustained by anyone through any violation of this rule.

Section 4. Section 6. In no case shall the Oklahoma County Free Fair Board or any of its officers be held responsible for any loss, damage, injury or any other cause to any such property, or to any person coming on said grounds.

Section 7. If the property owners or others interested in the property desire protection against loss, damage or injury from fire or any other cause, they must make their own arrangements and pay for such insurance.

Section 8. The Oklahoma County Free Fair Board expressly refuses to assume any liability for injuries to the person of any of the exhibitors upon the grounds of the Oklahoma County Free Fair and no claims for injury instituted or maintained against the Oklahoma County Free Fair Board, its officers, agents, representatives, servants, or employees for said cause by any person having license or privilege to exhibit at the Don Ramsey Agriculture Facility, on the Fairgrounds or occupying any space thereon, and it is part of the consideration for such license or privilege that such claims for damages are specifically waived.

Section 2. No premiums will be awarded on articles not mentioned in the schedule of premiums (articles will not be accepted by the Superintendent of the Department).

Engineering Design Challenges
Criteria:
Engineering design challenges are intended to encourage 4-H members to use the Engineering design process to create their own projects. These projects should include an engineering notebook, journal or description which answer the following questions about their project. Projects without an engineering notebook will be judged accordingly. Projects with notebooks will place before projects without notebooks, journals, or descriptions.
  ▪ What is the challenge or task of your project (Example: Throw a marshmallow six feet, incorporate technology into clothing, create alternative energy, design and build a rubber band powered car, etc.)
  ▪ Draw your design
  ▪ How did you test your design?
  ▪ What were the results?
  ▪ How did you change your design to improve it?
  ▪ Did you retest it? Did the results improve?
  ▪ Describe your final design and does it work?

Engineering Design Challenges will be judged based on creativity, design, function, and recordkeeping (journal or engineering notebook).

Juniors - grades 3-7; Seniors – grades 8-12.

Marshmallow catapult challenge design task
Design a trebuchet-style swing arm catapult. It may be similar to a teeter-totter or swing set. The beam (arm) is able to swing (go up and down). The arm of the catapult must be adjustable from the center to an offset (One side of the beam is longer from center pivot point.). Use at least five (5) different types of materials or parts (craft sticks, brads, dowels, etc.). Use weights and gravity as the power source. Catapult cannot be any larger than a 3 foot cube (3’ X 3’ X 3’)
Launch a marshmallow at least six (6) feet. A journal or engineering notebook should be included to describe the creation, purpose and function of the device. Explain how you built and tested your catapult. Chart your marshmallow launches.

17. Seniors

Alternative Energy Design Challenge
Design and build a device to utilize wind, solar, or water power. Commercially available parts are acceptable but the majority of the project must be homemade by the member. Must fit entirely within a 12-inch cube (12”X12”X12”). A journal or notebook should be included to describe the creation, purpose and function of the device. References for this project may include but are not limited to:

Rubber Band-Powered Vehicle Design Challenge
Design a wheel-driven vehicle, powered only by one rubber band (size #64 approx. ¼” wide by 3½” long by 1/32” thick.), which will transport a one-pound "load" (box of baking soda approx. size: 3½” x 4½” x 2") at least 9 feet (on a smooth flat floor) while remaining within the boundaries of a 3 ft. wide parallel track (marked off with masking tape). Speed is not a criteria.
There are no restrictions on materials, size, weight or number of wheels. However, the only energy source permitted is the elastic energy of one rubber band. Commercially assembled vehicles are NOT permitted. However, commercially manufactured components may be used as parts of the vehicle. The vehicle must be self-starting (i.e., no pushing, external power starts, etc.). Propulsion of the vehicle must be through the wheels (i.e., no propellers, no launching mechanism). Transferring the energy of the rubber band to wheels via gears, fly wheels, etc., is encouraged. No remote-control devices are permitted.
A journal or engineering notebook should be included to describe the creation, purpose and function of the device. Explain how you built and tested your vehicle and if you made any modifications. Chart or graph collected data and explain how you measured improvements in your engineering notebook or journal.

The Future of Agriculture Research Challenge Displays
The future of agriculture research displays will illustrate current research and forward/futuristic thinking that is changing the field agriculture and agricultural based careers. 4-H members will research current trends, future thoughts and ideas for continuing to effectively feed the world. These projects should have a minimum of three scholarly references identifying where and when the information was published.
These projects may:
- Describe the challenging need for increased food production for a growing population
- Describe a new agricultural production technique or an emerging agricultural technology that will enhance or improve our agricultural and food production systems,
- Illustrate a new vision for the future of agriculture
- Describe new STEM-based careers in agriculture.
Research displays should use research-based information and resources to answer questions similar to the following, “What will the future of Agriculture look like?”, “How will agriculturalist feed an ever-growing population?” or “What are future careers in agriculture?”
All research displays should be mounted on a free-standing display board not to exceed 3’ x 3’ when the sides are extended for display. Commercially available “Science Fair Presentation boards” are encouraged”. First place exhibits in each class will be displayed. Second place and sub-sequential exhibits may be displayed based upon space available and judges/committees’ discretion. Displays should be readable/understandable from a distance of 10 ft. A complete research report should be included with the display in a notebook.

CONSUMER/FAMILY SCIENCES DIVISION - SECTION 306

- Fall 2020 – All Design and Construction projects will be REQUIRED to have the Skill Mastery Sheet securely attached to the project. Use a safety pin and attach directly to the exhibit when at all possible. NEVER attach sheet to a hanger! The sheet MUST be completed by the 4-H member.

- The Skill Mastery sheet http://4h.okstate.edu/literature-links/lit-online/family-consumer-science/fabric/skill-mastery-sheets is an education tool to guide project work. Click hyperlink “Sample Technique Cards” to find instruction for many of the techniques noted in the skill sheets (i.e. facings, zippers, hems, fasteners, etc.).

- Additional hyperlinks to skill sheets and technique cards provided throughout categories. Fair exhibits have been carefully selected and directed for members to investigate and learn specific skills/information and to demonstrate mastery of these skills/information. The end product/exhibit is being evaluated on the skills “learned/mastered.” The skill sheet serves as the member’s “personal reflection” and communicates to the judge what was learned. Why is this important? Because in 4-H, the reflection and application of what was learned is more important than the end product/exhibit.

- The skill sheet is to be used as a planning tool. It is important that each 4-H member take responsibility for the life skill of “learning to learn.” This may require members, leaders and educators to look up terms and learn techniques as part of the educational process. Resources, instructions and project guides are posted online. Members are encouraged to seek out other valid resources which teach proper technique and knowledge in the areas of design and construction.

- General Skills to be mastered in project/product in ADC, IDC and HTDC:
  - **Structural Design**: Construction technique, size, form, color and texture suited to the materials and product end use.
  - **Elements of Design**: The finished product illustrates the member is learning or “mastering” the basic elements of design - line, shape or form, texture, color, and space.
  - **Principles of Design**: The finished product illustrates an awareness and application of the principles of harmony, proportion, balance, rhythm and emphasis adding dimension, interest and/or appeal to the finished product.
  - **Surface Design**: This is any lines, shapes, colors, textures, or materials applied to the product or item’s design that creates an emotional or personal quality, individuality and creative expression without disturbing initial/end purpose/how it is used. Design is that “something” which makes the item unique to the individual designer.
